Development plans for Municipalities - Taking of aerial photographs

—

38) The Centre for Economic Development and planning proposed on the suggestion of the Govt Architect to arrange for the "photographic Air Mosaic" to be taken of every important town in the state for such Development plans are contemplated as this is considered to be very useful now when there is a dearth for Staff in the P W D to conduct detailed town Surveys ordinary Reference is invited in this connection to the photographic Air Mosaic & Drawings which is stated to have greatly facilitated the planning work in Davangere etc though this photograph does not obviate the need for a ground Survey later, it is stated to render it possible for a start being made with the preparation of the plans without delay

(re drawing up Development proposals)

39) As per orders of the Minister for L S G on the above proposals of the Commissioner, the D C s were requested in letter dated 30 1 48 to ascertain and intimate the views of the Town Municipal Councils in their respective districts

40) Replies have been received till now from the D C s of Chickamagalur, Shimoga, Mandya Kolar, Hassan and Tumkur. The replies received are in some cases incomplete as the Resolutions of certain

4607/ms

Development plans for Municipalities - Taking of aerial photographs

Municipal Councils are not furnished the Replies have not at all been received from the D C s of Bangalore Mysore and Shimoga districts

41) The information so far received have been considered and noted below -

42) The Municipal Councils have generally agreed to the proposals for the taking of aerial photographs except Malur Somwarapet, Mandya, Srirangapatna, Krishnarajpet and Channapatna towns

43) The Municipal Councils of Sagar, Hassan, Nanjangud Tiptur, Chikballapur, Bowringpet, Gowribidanur and Kolar, though agreeable to the proposals have suggested that the cost thereof should be borne by the Govt

44) The Municipal Councils of Kunigal, Chickmagalur, Siddaghatta and Nelmangal have reserved their opinions until they are informed of the expenses to be incurred by them for these photographs

45) The Director, for Economic Development and planning who on a reference from the Commissioner for Dev Bangalore, Chickmagalur for furnish information

It was requested to the cost involved and whether the same was to be borne entirely by the Municipality or any grant was proposed to be given to them for the purpose has replied that he has been in communication on this subject with the Govt Architect and would forward the information in due course

A

4607/ml

Development plans for Municipalities - Taking of aerial photographs

B

He is also stated to have addressed the presidents of Town Municipal Councils & District Head quarters towns on the question of sharing the cost in order to have their views also on the matter

46) If the proposals are to be implemented it may perhaps be necessary to first & all provisionally determine in consultation with the Commissioner for Economic Development and planning the towns which are to be photographed and then get a topo map of the areas of those towns for towns sent to the Survey of India to ascertain the cost involved When these particulars become available, it may then perhaps be possible to decide finally which towns are to be photographed and place a firm order with the Survey of India for the work to be undertaken

47) Submitted for orders - Ref para 1 Supra

Mar 29/2/69

48) It does not also appear to be necessary to have more than photographs for all the Town & Minor Municipalities, in the present reference to their size and income It is for consideration whether a basis of population or income may be fixed and only the Municipalities of and above that Category selected for the purpose

Pr n 3 reg

49) The receipt of information called for from the Commissioner for

460/2

Economic Development Planning

As at A & B above may be awaited

50) It will be seen from the above summary of the opinions so far received, that several Mins have not understood the validity of the Scheme or appreciated a proper to appreciate the same, owing to their slender resources. In the circs no useful purpose would be served by getting prepared the photographs of Air crosse of all the Pths (106 in no) in the State, unless there is either an immediate or remote prospect of organising developmental or improvement works in them. Hence only such of the important Twns which would find use in getting the Air pictures may be selected in consultation with the Commissioner for C & RP. and necessary further action taken

Secl Secy for 9/3/49

51) I agree with the above views

Letter No D 1-296/46-47 dt 9-2-50 from the Commissioner of Economic, Development and Planning, Bangalore, forwarding a report in the matter

58) The report received from the Comm of Economic Development and Planning, Bangalore is subt for perusal

59) In Para 7 of the letter the Comm of Economic recommends that sanction may be accorded to take an mosaic of Chitaldrug town which has agreed to pay half the cost

60) From the statement flagged "J" it is seen that the cost comes to Rs 2,000/- This has to be met by the Govt & the Municipality in equal proportions

Subt for orders

17/3 Sdt

61) The report of the Commissioner of Economic Development & Planning in response Summarising the results of his consultation with the Deputies of Govt. Depts on the several Drafts thro the D.C's in connection with the preparation of aerial photographs for the Development plans for municipalities is submitted for perusal and request the orders of the Minister for R- dtd 10/48

Serial No

Para 5 supra. Except the Chitaldrug project, no other project is either willing or is in a position financially to undertake the scheme. Several PWDs want the work to be financed by the Govt. The Commission for Economic Planning & Development is not willing to recommend it being undertaken by the Govt. 6(g) It would not certainly be useful to get the Aircraft for the purpose of the Rly. all the way from Calcutta at an additional cost of Rs 4000/- to this Rly (Chitaldrug). The Govt would also have to pay half the other charges of getting the Aircraft prepared. This would amount to Rs 2000/-

6(3) Having regard to all the circumstances of the case, it is advisable to put off this proposal further, owing to various causes, the Districts in the State have not got sufficient funds at their disposal to take up such works & moreover less for financing the development plans as a corollary to the Air Survey photographs.

6(4) Respectfully submitted

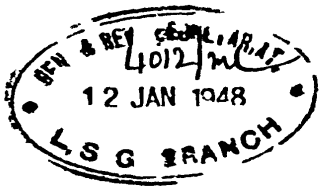
OFFICE OF THE COMMISSIONER OF
ECONOMIC DEVELOPMENT AND PLANNING
Bangalore dated 8- 1- 1948



Dear Sir,

In continuation of my Note No I-1 296/46-47 dated the 20th November 1947 regarding development plans for Municipalities I wish to enclose herein copy of letter No 1759 dated the 12th December 1947 from the Government Architect re preparation of a proper development for Chitaldrug Town and stating inter alia that no useful planning work can be done without exact records of what is in existence and suggesting that the Town Municipal Council may arrange a photographic Air Mosaic of the town etc

In agreeing with the above suggestion I would suggest that similar photographs may be got for every important town in the State for which development plans are contemplated as these would be very useful both in drawing up the programmes and in watching the execution of the same by having suitably enlarged photographs of the Town with the proposed improvements superimposed which would also serve as a constant reminder of what they have programmed and what they have achieved

Yours sincerely,

B S Raghavendra Rao

Syed Abdul Aleem, Esq , B A ,
Secretary to Government of Mysore,
Revenue Department, BANGALORE

The file has been submitted to the Secretariat for L S G on 6/2/48 with D no 2267.
The return of the answer file may perhaps be awaited by 1/2/48

LETTER No 1759 dated the 12th December 1947 from the Government Architect and Town Planning Officer in Mysore, Old Public Offices, Bangalore, to the President, Town Municipal Council Chitaldrug

=====

I have the honour to request you kindly to refer to your letter No H C 134/47-48 dated 4-12-1947 to the Deputy Commissioner Chitaldrug, suggesting to take up the preparation of a proper development plan for Chitaldrug Town

A suggestion of this kind is to be welcomed I shall be glad to visit Chitaldrug together with the Commissioner of Economic Development and Planning and to render all possible help

However no useful planning work can be done without exact records of what is in existence For town planning in particular properly surveyed town maps are a conditio sine qua non

The Public Works Department is very short of staff and it is not likely that it will be possible to carry out detailed town surveys in the near future with the help of our departmental staff

Under these circumstances, it is suggested that the Town Municipal Council, Chitaldrug may arrange for a photographic air mosaic of the town to be taken by the Survey of India This will greatly facilitate our work, and though it might not do away with the need for ground survey at a later date it will make it possible to start with the preparation of development plans without delay Kind reference is invited in this connection to the photographic air mosaic of Davangere which has facilitated the planning work in Davangere City tremendously

I am enclosing for reference in this connection copies of correspondence between the Director, Southern Circle, Survey of India and the General Manager, Mysore Iron & Steel Works, Bhadravati, with the suggestion that the same plane which comes to Bhadravati may be utilised for the photographing of Chitaldrug Town and of the surrounding country

==========

Memo No 1761 dated the 12th December 1947 from the Government Architect

--

Copy of the above is forwarded, with compliments, to the Commissioner of Economic Development and Planning in Mysore, Bangalore, for his information

Sir,

Subject - Taking the aerial Photographs of Towns in connection with the preparation of Development Plans for the Municipalities

In continuation of my letter of even number dated 7th April 1948 on the above subject, I have the honour to forward herewith the copies of the resolutions passed by the Town Municipal Councils in this District for kind perusal The Municipal Councils of the Tarikere, Kadur, and Birur Municipalities are agreeable to the suggestions offered by the Commissioner for Economic Development and Planning in Mysore, Bangalore The Town Municipal Council, Chickmagalur, have resolved to furnish their views on ascertaining the probable cost towards the aerial photographs of their town.

In the above circumstances, I request that the views of the other town Municipal Councils in this District may kindly be considered and the necessary arrangements kindly caused to be made in this behalf

I have the honour to be

OFFICE OF THE COMMISSIONER OF
ECONOMIC DEVELOPMENT AND PLANNING

Bangalore dated 2-12- 1948.

To

THE SECRETARY
to the Government of Mysore,
Revenue Department, Bangalore

Subject Development plans for Municipalities-
Aerial Photographs

With reference to the correspondence ending with your letter No L 3756 dated 10-10-1948 and in continuation of this office letter dated 29-10-48 on the above subject, I have the honour to forward herewith for information of Government a copy of letter No 1195 dated 24th November 1948 from the Government Architect and Town Planning Officer in Mysore regarding the cost of taking out aerial photographs of Towns and to state that I have addressed the Presidents of Town Municipal Councils at District Headquarter Towns to intimate me early, whether the Municipal Councils concerned are prepared to bear the cost in full or any portion thereof and also to forward a set of Topo maps showing the area to be photographed for being sent to the Survey of India in advance with a firm order so that the survey of all these towns might be undertaken by next January or February 1949

After the receipt of their replies, I shall address the Government in the matter again

Yours faithfully,

COMMISSIONER

Copy of letter No 1195 dated 24th November 1948 from the Government Architect and Town Planning Officer in Mysore to the Commissioner of Economic Development and Planning in Mysore, Bangalore

---

"With reference to your No 21-296/46-47 dated 10-11-1948 requesting information regarding taking aerial photographs of all District Headquarter towns for planning the developments, I write to inform you that these photographs are generally taken on 7" to a mile scale and one set of contact prints can be secured at roughly Rs 80 per sq mile But this is rather too small a scale for getting a correct idea of the topography A photo mosaic on a scale of 16" to a mile can be got at an additional cost of Rs 80 per sq mile

As regards the time taken the contact prints can be had within a month or two of photographing the area and the photo mosaic takes a longer period, about 2 to 4 months

I learn that the Survey of India who undertake this work are requisitioning a plane about January or February 1949 for other aerial surveys in the Krishna Pennar Valley and it would be convenient if a firm order is placed for the towns to be photographed before this time since the Survey of India will not take up the surveying of small areas independently as it will be very costly to requisition the aeroplane for photographing or surveying the small areas.

I may also mention in this connection that the aerial photography of Davangere Town has been completed by the Survey of India on a separate requisition

From the photo mosaic survey maps on which ground contours are also marked, are prepared These maps will be very helpful in fixing layouts and drainage schemes The preparation of these contour maps from the photographs take a long time as the Department has very few trained men and it is consequently very costly also It costs about Rs 3000/- per sq mile to get up a fully contoured map to the scale of 16" to a mile and it takes nearly a year to map out two sq miles

Trust the above information meets with your requirements

If it is decided to take the aerial photograph of the District Headquarter towns, an extract of topo map showing the area to be photographed has to be sent to the Survey of India together with a firm order very early "

Subject — Development Plans for Municipalities — Aerial photographs

Sir,

With Reference to the Correspondence ending with your Letter No. I-296/46-47 dated 2-12-48 on the above Subject I am directed to State that the Replies received from the Municipal Councils whose towns were requested to furnish their views on the proposals that many of them have not understood the objects of the Scheme, are not in a position to take advantage of the Same owing to their Slender finances. It would appear that no useful purpose is likely to be served by carrying on correspondence to get prepared the photographic Survey plans in respect of all the Municipalities in the State, unless there is either an

immediate or remote prospect of their organising developmental or improvement schemes ~~on them~~ using these photographs

I am ~~therefore~~ therefore to request you to select in consultation with the Dy Commrs concerned, such ~~of the~~ important towns as ~~have~~ are now in a position to use ~~and use in getting the~~ their Masters for planning ~~latter~~ development and which are also able to meet either ~~in~~ wholly or in part of ~~or the case may be~~ the cost involved ~~thereon~~ and to send up your finalised proposals in this regard for the orders of Govt.

Yours faithfully.

Sir,

SUBJECT:- Development plans for Municipalities
Aerial photagraphs

With reference to your Memo No M3 C 317/47-48 dated 27th february '48 forwarding a copy of letter No L 13034-42 dated 30th January 48 from the Secretary to Government Revenue Department calling for the opinion of the Municipal Council on the above subject, I have the honour to state that the Municipal Council at their Special general meeting held on 3rd May 948 considered question and resolved that ariel photagraph of the Town may be taken as suggested by the Commissioner for Economic Development and planning in Mysore, Bangalore

I may state in this connection that the arial Survey of the Town helps immensely for taking up the postwar development schemes the cost on this account may be met out of the closing balance at the credit of the Municipal Council during the current year.

I request you therefore kindly to obtain sanction of Government to the resolution of the Municipal Council at an early date

GENERAL & REVENUE SECRETARIAT 9 FEB 1950 MUNICIPAL BRANCH

TO

THE SECRETARY
to the Government of Mysore,
Revenue Department, Bangalore

Sir,

SUB - Development Plans for Municipalities - Aerial Photographs

With reference to the correspondence ending with your letter No L 10833/Ml 197-48-2 dated the 24th March 1949 stating that no useful purpose is likely to be served by carrying on correspondence to get the 'Photographic Air Mosaic' in respect of all Municipal towns in the State unless there is either an immediate or remote prospect of their organising development schemes using these photographs and directing that the proposals may be sent in this behalf in consultation with the Deputy Commissioners of Districts by selecting such important towns as are now in a position to use air mosaics for planning developments and which are also able to meet either wholly or in part of the cost involved, I have the honour to state that the Presidents of Town Municipal Councils of seven District Headquarter Towns viz , Kolar, Chickmagalur, Tumkur, Mandya, Hassan, Shimoga and Chitaldrug and the Deputy Commissioners of Districts were addressed in the matter

2 The Presidents of Town Municipal Councils of Kolar, Mandya, and Hassan have replied that these Municipalities have resolved that the aerial survey of these towns may be taken up and the cost be met by Government The Town Municipal Councils of Tumkur and Chickmagalur have resolved that aerial survey of these towns is not necessary, while the Town Municipal Council of Chitaldrug has resolved that it is prepared to meet half the cost of aerial survey

3 The Deputy Commissioners of Bangalore, Tumkur, Mysore and

P T O

Mandya have stated that there are no Municipalities in these Districts which are in a position to use air mosaics for planning their development The Deputy Commissioners of Kolar and Shimoga have selected the towns of Kolar, Chickballapur, Chintamani and K G F and Shimoga, Bhadravati and Sagar respectively but have stated that none of the Municipal Councils of these Towns is agreeable to meet the cost either wholly or partly in view of their slender financial resources The Deputy Commissioner, Chickmagalur has stated that the Municipal Council of Birur Town is the only Municipal Council in the District that has agreed to bear one-fifth of the cost of air mosaic The Deputy Commissioner, Chitaldrug District while suggesting that Chitaldrug and Davangere are the only important towns in the District which are in a position to make use of air mosaics, has stated that the Municipal Council of Chitaldrug Town has resolved that aerial survey of the Town may be taken up and that it is prepared to meet half the cost of taking air mosaic of the Town

3 The Deputy Commissioner, Hassan District, has not sent up any proposals so far

4 The Government Architect who was requested to intimate the probable amount required for the proposed aerial survey of District Headquarter Towns keeping in view the probable extent of the area to be surveyed in each of these towns has stated that the cost would come to Rs 20,000/- for the area proposed to be photographed including one mile belt all round the existing town limits (Copy of letter No 966 dated the 20th January 1950 with a statement received from the Government Architect is enclosed)

5 From the above it is clear that the Municipalities either of the District Headquarter towns or the Municipal Councils of other Towns suggested by the Deputy Commissioners are not willing to meet the cost of taking air mosaics of the Towns excepting Municipal Councils of Chitaldrug and Birur which have

agreed to meet half and one-fifth of cost respectively

6 In the circumstances, I am constrained to observe that the Town Municipal Councils in the State have not evinced any interest about undertaking this important work of taking air mosaics which is important for the preparation of development palns for their own benefit nor are they earnest about it, with the exception of Chitaldrug Town Municipal Council which has agreed to meet half the cost of aerial survey

7 I therefore feel that there is no point in forcing these Municipal Councils to have air mosaics as there is no prospect of taking up development plans in the near future from their own resources on account of their slender financial resources excepting Chitaldrug Town Municipality I am therefore not in favour of recommending to take up aerial survey of Towns entirely at Government cost for the benefit of the Municipal Councils which are not themselves earnest to have air mosaics of the Towns and are not in a position at least to bear half the cost I recommend however that sanction of Government may kindly be accorded to take air mosaic of Chitaldrug Town, the Municipal Council of which has agreed to pay half the cost

8 It may be stated in this connection that the cost of moving the Aircraft from Calcutta amounting to Rs 4,000/- would also have to be met for this single Municipal Council only If other District Towns take up this question, the cost would become cheaper, the cost being distributed pro-rata

Yours faithfully,

COMMISSIONER

DBR/-9-2/2

SUB - Development plans for Municipalities - Aerial Photographs

In continuation of this Office letter No I_1- 296/46-47 dated the 10th February 1950 on the above subject, I have the honour to forward herewith for information of Government a copy of letter No 1001/53-E-9-1 dated the 24th February 1950 received from the Director, Southern Circle, Survey of India, intimating among other things that the cost of moving the Aircraft is not being debited to the indentor at present and to state that the cost of moving the Aircraft from Calcutta to Bangalore amounting to Rs 4,000/- as proposed by the Government Architect and Town Planning Officer in his letter No 966 dated the 20th January 1950 in connection with taking air mosaics of towns may not be necessary

The main file on the subject has been sent to the L S G Secy on 20/3/50 This will be sent after the file is received back in ~~DDR/RE~~ Branch

L Sg Minister 27/3

Yours faithfully,

COMMISSIONER

COPY OF letter No 1001/53-E-9-1 dated the 24th February 1950 from the Director, Southern Circle, Survey of India, Bangalore, to the Commissioner of Economic Development and Planning in Mysore, Bangalore

=====

Subject - Air Photography of District Headquarter Towns

Refce - Letter No 966/E 18 dated 20 January 1950 from the Govt Architect & Town Planning Officer, Bangalore, to you, with copy to this Office

The data for cost rate of air photography etc , per square mile assumed in the above letter is correct in principle But the actual cost depends upon the shape and size of the area to be photographed

2 Areas are generally photographed by rectangles to suit the width of the photographic film used An irregular zig-zag shaped area, though small, may necessitate a larger area to be photographed than a rectangular-shaped block of equal area, so as to include all bends and corners, thereby increasing the number of photographs and consequently the cost of photography, preparation of the photo mosaic, etc

3 A firm estimate of cost can therefore only be prepared and supplied to you on receipt of the marked maps, showing the exact limits of the area required to be photographed Will you please submit your firm demand for photography together with a set of marked maps showing the area to be photographed?

4 It may be added here that the cost of moving the aircraft is not being debited to the Indentor, at present

To The Commissioner of Economic Development & Planning Mysore Bangalore

Sir,

With reference to the correspondence ending with your letter No DP. 296/46-47 dt 8 3 50 on the above subject, I am directed to state that Govt consider that it is too costly a job to be undertaken by anyone at present and much less by the Chief Engineer, Town Planning. It is therefore suggested that the proposal may be dropped

Yours faithfully
